Notes Governing Exhibit 13.2: Parcel Specific Development Standards

- 1 Parcel with more than one use designation may be appropriate for either type of land use indicated in the above table. All uses shall comply with the appropriate standards for the use type as defined in this agreement. Development consisting of more than one use shall be subject to approval of the Town in accordance with ¶ 13.B.5. Mixed Use Development.
- 2 Acreage figures are approximate and may vary somewhat over time.
- 3 Gross Density equals the number of potential Dwelling Units (existing and future) divided by the gross residential acreage of the parcel above mean high water, excluding Fresh Water and Salt Water Wetlands. Gross Density limits are not intended to discourage or limit the development of higher density types or clusters or residences within a parcel; provided, however, that maximum density limits are used to establish an absolute cap on the total number of Dwelling Units on a parcel. The above maximum Densities can not be obtained for every parcel; as each parcel is platted or sold, the Property Owner shall clearly establish the maximum number of Dwelling Units which may be permitted on a parcel. In no instance shall the maximum number of Vested Units established after the execution of this agreement exceed 1,184. In the event that density is limited by physical constraints, a bridge permit or other regulatory constraint beyond the Town's jurisdiction, said limits are not intended to be superseded by this agreement.
- 4 The total number of single family Lots and non-single family Dwelling units permitted in the parcel at maximum permitted densities.
- 5 The number of single family Lots with preliminary plat approval and the number non-single family dwelling units approved by the Town as of July 23, 2005.
- 6 The maximum number of Vested Units which may be approved on any one parcel, subject to the limit of 1,184 total Vested Units. The total for this column is 2,461 units. Where existing units are indicated in the previous column, resubdivision may be required prior to establishing any Vested Units.
- 7 Maximum floor area ratio (FAR) equals the building floor area divided by the non-residential or mixed use acreage above mean high water, excluding Fresh Water and Salt Water Wetlands. This column shows the maximum floor area ratio which may be Developed on an individual parcel. In no event shall the total amount of non-residential development, exceed 219,000 square feet for the Real Property.
- 8 No development shall exceed the maximum number of stories or the maximum height in feet listed in this column, subject to the bulk limitations

described in ¶ 13.B.1.(e), provided however, that by reason of floodplain regulations, and the need for innovative design for view-shed and hurricane safety purposes, the height limit on single family residences is forty (40) feet from Ground Floor Level. A maximum height of 45 feet from Ground Floor level is permitted on Parcels 12A, 13, 41, 42 and 43 for single family. Listed height in feet applies to non-single family development.

- 9 Parcel open space as described in ¶ 13.B.4. of this Agreement, is the minimum percentage requirement of Pervious Coverage for a Parcel.
- 10 Height allowance of 65 feet from Ground Floor level is to allow for alternative forms and configurations of massing to minimize the impact of 4 habitable floors. This would include but not be limited to increased roof pitches, dormers, and innovation in overall massing.
- 11 No structure on this Parcel shall be higher than the upper eave height of the Vanderhorst Mansion.
- 12 Non-residential uses shall be limited to the Beach Club and associated uses, including dining, kitchen/food preparation areas, public lobby, meeting rooms, lounge, club administrative/operations offices, service and mechanical areas, locker rooms, restrooms, retail store for beach/pool sundries and other uses normally associated with beach club operations and or restaurant/snack bar facilities. Total building floor area for non-residential habitable structures on this Parcel not to exceed 25,000 square feet.
- 13 See ¶ 16(d), *infra*.
- 14 Non-residential uses shall be limited to golf country club uses including golf pro shop, tennis pro shop, locker rooms, restrooms, dining, kitchen/food preparation, public/lobby area, meeting rooms, lounge, swimming pool, tennis courts, golf course, practice range, maintenance facilities, club administrative/operations offices, service and mechanical areas, maintenance and other uses normally associated with golf country club operations. Total building floor area for non-residential habitable structures on this parcel shall not exceed 40,000 square feet for club operations and 15,000 square feet for golf course/grounds maintenance.
- 15 Currently there are three (3) Membership Lodge structures used by guests of Property Owner and/or Kiawah Island Club, Inc. and located on Parcel 37. The Property owner agrees on behalf of Kiawah Island Club, Inc. that the Club will not lease more than 20 Membership Lodge structures, including those currently existing at any one time, and further agrees that these structures will be limited to Parcels 12A, 12B, 13, 16, 22, 23, 41 and 43.
- 16 Development subject to provisions of ¶ 16(g).
- 17 Dwelling unit types limited to single family detached units, including patio homes and zero Lot line developments.
- 18 Intentionally omitted.
- 19 Access to East Beach Interior is limited to Green Dolphin Way and Turtle Point Lane. Existing tunnel connection between Parcels 16 and 22 to remain.
- 20 No greater than 20 acres of land may be Developed for residential use plus land for infrastructure (roads, utilities, trails, paths, community recreation, etc.)
- 21 Maximum building height for parcels 42 (Otter Island lots 1-41) and 43 (Cougar Island) shall be increased to 45' for lots on the water side of the road and are oriented to the ocean or Penny Creek, as determined by ARB.
