COMPREHENSIVE PLAN

FLOOD MITIGATION & SEA LEVEL RISE ADAPTATION

- **Prepare for Planning Commission approval, amendments to the Comprehensive Plan to address the implications of Flood Mitigation and Sea Level Rise [FMSLR].**
- **Recommend to Town Council an action plan to address the goals adopted by the Planning Commission in the Comprehensive Plan.**
- Adopt the subcommittee's recommendation that a range of 1.5' to 2.5' of SLR over a 30 to 50 year time horizon be considered most likely.
- Encourage other community entities to adopt consistent policies and actions.

**COUNCIL
OBJECTIVES**

- **Initial work sessions with former members of the FMSLR Subcommittee to gather input and facilitate questions.**
- **Open dialogue between work group addressing the report recommendation's, key takeaways, areas of focus and needed resources.**
- **Retain a broad approach in identifying large general themes that provide opportunity to address implications, contrary to selecting each specific recommendation outlined within the report.**
- **FMSLR focus (Five Year Comprehensive Plan review coming in 2020)**
